

## **BDI RESETTING GUIDE**

### **BDI RESETTING GUIDE E30/EZ30/D40/EZ40/S22**

If after a full charge the BDI does not reset follow these instructions.

1. With the truck on operate all the functions 1 time.
2. Turn off the key switch and depress the power disconnect.
3. Plug the charger back in.
4. After the charger has been on for 1 minute turn the Key Switch on and pull up the power disconnect.
5. The gauge should reset itself.
